About the Program

SITÉM provides skills training and support programs to Métis people in B.C. who are living in chartered Métis communities. The training is strategically designed to meet community regional demands, with a strong focus on in-demand jobs. In addition to skills training, SITÉM also provides the necessary wrap around supports such as start-up tools, lunch programs, job coaches, work practicums and much more.

FAST brings comprehensive skills and competency assessments to SITÉM to help individuals identify how their competencies match current industry needs.
